

FORTIETH YEAR

BISMARCK, NORTH DAKOTA, FRIDAY, AUGUST 5, 1921

PRICE FIVE CENTS

STOCK MEETING TO BE CALLED IN CITY SOON

Head of Commercial Club Appoints Committee to Follow Up New Salem Tour

LOOK FORWARD TO CIRCUIT

Plan Generally is to Increase Interest in Purebred Stock and Dairy Circuit

A committee has been named by C. L. Young, president of the Commercial Club, to take up the matter of aiding in the increase of purebred cattle in Burleigh county and the possible formation of a dairy circuit.

The committee, it is contemplated, will call a meeting in Bismarck within ten days of farmers living in the Bismarck territory and bankers and business men from towns in the farthest points in the county which would be called upon to assist in any movement in their respective communities.

W. T. Owens is chairman of the Commercial club committee, the other membership of which are J. P. Jackson, P. R. Fields, E. A. Lahr and George Duemeland.

It is proposed by the Commercial club to take steps to realize upon the valuable information obtained in the trip to the New Salem dairy circuit recently. About a year ago a circuit was formed in the vicinity of Flasher through co-operation of business interests and farmers. The first step, it is proposed, will be to increase the number of purebred cattle in Burleigh county, and perhaps to gain a general sentiment for the development of one particular breed of cattle. Several farmers living near Bismarck declared their intention after the New Salem trip of purchasing purebred cattle and expressed a desire for centralized action, which is afforded through the Commercial club plan. The second step will be the actual consideration of the formation of a dairy circuit.

RAIN REPORTED IN MANY PLACES

Although rain was reported in many sections of the state in telegrams received by the weather bureau today, roads are said to be in good condition except that they are somewhat muddy in the extreme northeast portion.

Rain was reported from the following weather stations: Amenia, 22; Bowells, 16; Devils Lake, .01; Dunn Center, .10; Ellendale, .17; Grand Forks, .48; Fessenden, .18; Langdon, .41; Larimore, .40; Napoleon, .04; Pembina, 1.75; Moorhead, Minn., 20.

INSPECTORS TO WATCH GRAIN

Department Prepares For Annual Rush of Business

Fargo, N. D., Aug. 5.—With a record of 2,550 samples of wheat graded for elevators and farmers of the state during the past year, besides its regulatory and administrative duties, the State's Grain Inspection Department has entered upon its annual task of issuing new licenses to elevator operators before the crop starts to move to the elevators. One of the greatest needs in local grain marketing operations at present, according to J. A. McGovern, chief deputy grain inspector, is for more widespread knowledge among farmers of grades of wheat. While changes in the federal standards for wheat that will reduce the wide range of wheat values included in each grade would result in a great improvement in grain marketing operations, producers must be made acquainted with the grades before the improvement would be thoroughly reflected to the farmer.

"When the producer knows the wheat grades," says Mr. McGovern, "then he is able to judge its value more accurately. In case a dispute arises as to the grade in which sample belongs, the state department decides the case by making a thorough analysis and grading of a sample that is sent by the disputants. Two inspectors are in the field at all times, co-operating with elevator managers to see that all laws and regulations are complied with, and in sending samples to the central office for analysis. While the state's grain grading law is in federal courts at present, the law is still in force and will be in force until it is decided by the courts to be otherwise. Rules in regard to disputes over grades, the grain grading and inspection laws are required to be posted for public inspection in all elevators of the state."

Indications are that the wheat crop of the state is this year, according to Mr. McGovern. Despite the good straw and outward appearance in many fields the threshing machines will soon tell the true story.

DENTAL CLINIC FOR FORTS

Grand Forks, N. D., Aug. 5.—A dental clinic will be maintained in the high school building at Grand Forks during the coming school year. F. E. Burchard, secretary of the board of education, announced yesterday. When school opens, all school children will be examined. The clinic will be open at intervals during the rest of the year.

NAMED GAME WARDEN

Osvald L. Anthony, of Oakes, has been appointed game warden.

THIRD AVENUE VS. FIFTH AVENUE

Mary Casey Thorne, the "Belle of Third Avenue," who is battling her Fifth avenue husband, Joe Wolfe Thorne, to clear her name and obtain her child.

FIGHTS TO CLEAR HER NAME

"Belle of Third Avenue" Seeks to Recover Son From Millionaire

By Newspaper Enterprise

New York, Aug. 5.—Mrs. Mary Casey Thorne tried to travel the two difficult blocks from Third avenue to Fifth avenue. Now she is in the midst of a bitter fight to clear her name and to regain possession of her little son.

From her own bitter experiences, which have been climaxed by a divorce suit, Mrs. Thorne gives this advice:

"The girl who is poor and who marries a wealthy man had better look a long time into his character before doing so. If she doesn't, and he turns out to be a kind of man who tries of a woman as he would of a toy, she will have a long uphill fight."

Married Millions

The self-made Mary Casey, who worked her way through Barnard college and graduated with high honors, was proud that she came from humble surroundings and whose beauty earned her the sobriquet, "Belle of Third avenue," married the millionaire banker, Joe Wolfe Thorne.

And she is having an uphill fight.

Though she sued her millionaire husband for separation, his court suit for divorce was heard first. A referee in divorce recommended that a divorce be granted Thorne, that attorney defended the wife and that custody of six-year-old Joe Wolfe Thorne, Jr., be given to the father.

Mrs. Thorne is fighting in the supreme court to have the referee's report set aside.

Child Spirited Away

Her child, whom she has not seen since he was spirited away while out with his nurse, is the chief stake in the mother's fight. She has not seen him for three years. She thinks he is in Denver.

While doing war work Mrs. Thorne, Raymond B. Wilton, a sailor from California, turned named Wilton as corespondent.

Mrs. Thorne absolutely denies these charges.

The money angle of defeat doesn't worry Mrs. Thorne.

"If I should lose everything, I should go back to teaching or take up the study of law," she said, "I often thought, as I rode up Fifth avenue in my air machine of the early, happy life I lived when I rode on top of a bus."

WILTON MAN IS BACK TO FARM

Wilton, N. D., Aug. 5.—Are you being troubled with garden or household insects just now? You can get rid of them even if you do not know the name of the insects, if you understand the general methods used in controlling them and the reasons for those methods, states a circular entitled "Control of Garden and Household Insects" which has just been published for free distribution to people of the state by the Agricultural Experiment Station.

Plant pests are divided into two classes according to the circular:

"Harmful insects, which eat leaves or other parts of the plant and are controlled by poisons applied to the plant, and sucking insects which insert hooks beneath the surface and suck the juice and must be controlled by spraying sprays made from them which kill them when it touches them."

Variety for controlling various kinds of plants pests are then taken into account.

Most household pests are cleaned out, states the circular.

Some insecticides are controlled by porous materials.

For example, as for plant pests,

the best method is to spray them with water.

For household pests, the best method is to spray them with water.

BUCK WEAVER MAY SUE FOR FULL SALARY

Attorneys Intimate That Action
Against Chicago Club Will
Be Started

Chicago Aug 4—Attorneys for Buck Weaver forme White Sox player found not guilty by a jury of conspiring to throw the 1919 world series intimated that they would bring suit to recover payment of salary on his contract up to 1922.

MEN ARE DENOUNCED.

Boston Aug 4—Kid Gleason manager of the Chicago White Sox said today that none of the players involved in the world series conspiracy charged would ever play with any club of which he was manager. Gleason violent in his denunciation of the men who were acquitted or charged of throwing the world series of 1919 denied that he had traitorized with the defendants in the court room at Chicago where he was a witness.

Wish them well! Gleason explained not much and he broke into a string of epithets. I don't think they'll ever play in organized baseball again. I know they'll never play under any club that I manage. Gleason said he stood with Comiskey in his attitude expressed in Chicago and endorsed entirely the statement issued by Commissioner Landis.

The White Sox players withdrawn from turning to Eddie Collins as their spokesman Collins said there would be nothing for the players to say unless the baseball authorities took unexpected action.

PACIFIC BARS ALSO.

San Francisco Aug 4—None of the former White Sox players acquitted in Chicago will ever be permitted to play in the Pacific Coast baseball league William H McCarthy San Francisco president announced here.

STARTS BETTING INQUIRY.

St Paul Aug 4—Judge Kenesaw M Landis high commissioner of baseball last night ordered an investigation into baseball gambling in St Paul in a message to John W Norton president of the local American association club Judge Landis acknowledges reports of gambling here and requests that the matter be taken up with the proper authorities.

President Norton who is at his summer home at Brainerd said tonight over the long distance telephone It is news to me that baseball gambling is going on in St Paul However it such is the case we will get rid of it right away He said he would take the matter up with the St Paul police.

CHALLENGE OF LINTON ACCEPTED

Nothing remains to be done but arrange the time.

The Linton Knights of Pythias baseball team claiming the state championship issued a challenge in The Tribune yesterday. It was answered by the Mandan Lodge today as follows:

Manager Knights of Pythias Ball Team
Linton North Dakota

Dear Sir and Brother
The Mandan Lodge No 14 Knights of Pythias ball team would like to know how you get that way in that that you make arrangements with our Million Dollar Manager Mr H Kramer of Mandan for a game.

Fraternal yours

ROY F DOA
Keeper of Records and Seal

EVERS REPORTS DENIED

Chicago Aug 4—Reports published in Chicago today that Johnny Evers had quit as manager of the Cubs and that Bill Killefer the catcher was to be named as his successor were emphatically denied by William Veeck president of the club. Evers abdicated from the park was explained by Mr Veeck with the statement that the manager was ill.

To stimulate the desire of each

FIGHT STOPPED
Lansing Mich, Aug 4—Governor Goresbeck today instructed the state boxing commission not to permit a ten round bout between Captain Bob Roper and Billy Miske scheduled to be held at Grand Rapids, Aug 12. The governor declared he did not believe the proposed bout would meet with the strict requirements of the Michigan boxing law.

FORD'S PLAN FOR MUSSLE SHOALS

Detroit Manufacturer Would Make Every Freight Car Into Three

BY EDWARD THIFFRAY.

In Camp via Oakland Md Aug 8—What is Henry Ford going to do with the nitrate plant at Muscle Shoals, Ala which he has offered to purchase from the government for \$5,000,000 cash and a yearly rental of \$1,680,000 on a 100-year lease?

His plans are so stupendous he will not now reveal them. But in an exclusive interview he authorized these statements:

A mammoth electrical industry will be established on the banks of the Tennessee river.

Nitrate production will only use one-third of the cheap water power.

One big industry will be the melting of steel railroad cars into an alloyed metal—making three cars out of one!

Ford, who is vacationing in camp with Thomas A Edison and H S Firestone, chuckled over his own amazing statement that he would make three cars "grow" where only one "grew" before.

I cannot discuss plans in detail while the proposition is still before Congress Ford said.

Lighter, Better Cars.

"Yes, we plan to make nitrate for fertilizer. But nitrate is only a part of it. One big reason we made the proposition to the government—and a reason that might interest the railroads—is that we want to manufacture railroad cars that will be lighter and better."

"Light rolling stock is one of the big needs of American railroads. And we will make new and better cars out of junk."

"We expect to use one-third of the 900,000 horsepower at Muscle Shoals—cheap horsepower—for electric furnaces to melt up steel cars. We will make alloyed metal cars. Out of every one car that is ready for the scrap heap we will make three new cars."

Stretching Metal.

Stretch them—that's the idea. When the steel is melted down we will introduce alloys and stretch a 60,000 pound car into three times its equivalent in light durable metal.

There is water power at Muscle Shoals that will make our electric furnaces possible. Water power is the big thing! It is being criminally wasted everywhere.

"Thomas Edison and I took a ride down the Potomac river the other day. On the canal we saw canal boats hauling coal."

"We agreed that if the river were harnessed properly there would be no need of the coal being carried up and down. Houses could be heated and lighted and factories operated on cheap water power."

Shouldn't Burn Coal.

Why, coal ought not to be burned at all!

The common sense thing to do is to take the coal out of the mines and take out all the by-products—light oil, coke, tar, benzol, gas, etc.

"We do that in Detroit. We use 3,000 tons of coal a day, and we have enough of valuable by-products left over after using everything we need in our plants to sell coke to the city of Detroit and put gas into the city gas mains."

New York Aug 4—The luncheon club idea as a means of cultivating the spirit of brotherhood and co-operation among business and professional men is rapidly spreading throughout the United States and Canada.

These clubs today in all sections of North America are aiding in the problems of reconstruction and are promoting the principles of good government and good citizenship and are promising to become great business building organizations.

Since the birth of the luncheon club idea in Chicago, February 23, 1905, when the first group of Rotarians launched their organization, two other international associations have been formed—the Lions and the Kiwanis—which together with the Rotary have total membership of nearly 150,000 divided into 1740 different clubs.

Taking as its slogan, "Service, not Self"—he profits most who serves best, the Rotary Club has become the largest of these luncheon clubs having 900 clubs with a membership of more than 70,000 of the representative business and professional men of the country.

The Rotarians urge the Golden Rule in business dealings and their objects are set forth as follows:

To promote the recognition of the worthiness of all legitimate occupations and to dignify each member's participation in affording him an opportunity to serve society.

To encourage high ethical standards in business and professions.

To increase the efficiency of each member by the development of improved ideas and business methods.

To stimulate the desire of each

member to be of service to his fellow men and society in general.

"To promote the specializing of acquaintance as an opportunity for service and an aid to success."

To quicken the interest of each member in the public welfare of his community and to co-operate with others in civic, social, commercial and industrial development."

The international headquarters of the Rotary club are at Chicago, and its officers are Crawford C McCullough, Fort Williams, Canada, president; Ralph W Cummings, Lancaster, Pa, first vice-president; William Copcock, Council Bluffs, Ia, second vice-president; H J Luther Stark Orange, Tex, third vice-president; Rufus F Chapin, Chicago, treasurer.

Kiwanis Club

The second luncheon club association to be founded—the International Kiwanis Club—was organized at Detroit, January 7, 1916, by a group of business men, who took as their name one of Indian origin, which stands for the observance of the Golden Rule in private, civic, social and business life.

"Promotion of public health, hygiene and sanitation, especially among those who need instruction and guidance in the care and feeding of children."

"Being an organization thoroughly loyal to our government it is our special interest to advance education in the language, custom, ideals and government of our country, especially among adults of foreign birth."

"Strict adherence to the highest code of ethics in business and social relations."

The biggest asset of any nation being its people, one of the cardinal points of Kiwanis is the cultivation of a spirit of genuine brotherhood among men.

The Kiwanis headquarters are in Chicago and its officers are Dr C C Roy Denver Col, president; Ewen W Cameron, Minneapolis, Minn, first vice-president; Harry A Newman, Toronto, Ont, second vice-president; O T Lasher Ardmore, Okla, third vice-president; Melvin Jones, Chicago, Ill, fourth vice-president.

The Kiwanis club of Marion, O, club the Prince of Wales, is the largest in the country.

GLENDIVE ALSO BUILDS A POOL FOR CITY USE

Uses Bismarck Method of Volunteer Subscriptions and Work to Provide Place

MANY WIELDING SHOVELS

Glendive Mont Aug 5—The largest public swimming pool in the state is now being constructed in Glendive. More remarkable still it is being built by volunteer labor and contributions of material and money. The city is wildly enthusiastic over the pool and everybody is wielding a shovel, running a tractor, directing a treno or doing his share to rush the work along.

Last Friday evening a mass meeting was held at the office of the Glendive Chamber of Commerce to determine whether a swimming pool was wanted and to devise ways and means of securing the same. The meeting was presided over by John F. Murphy, president of the Glendive Chamber of Commerce who issued the call for the same. Little time was wasted on the preliminaries, and soon after the purpose of the meeting was explained, those present unanimously voiced their sentiments in favor of the best kind of a swimming pool that could be constructed. It was also the consensus of opinion that the structure should be built by volunteer effort rather than by the creation of a park district and the sale of city bonds. Everyone wanted the pool at once and the latter plan meant delay. Soon the necessary committees were appointed and the meeting resolved itself into a donation party.

N. P. Helps Out.

The Northern Pacific Railway helped out largely with an offer of sand and gravel. Others offered trucks, wagons, teams, men, cement, engineering service, piping and valves. Subscription blanks were quickly prepared and soon filled out. Before the meeting adjourned and within one hour and a half after it opened sufficient was raised to assure those in charge that the project could be undertaken and work begun at once.

The next afternoon, at a joint meeting of the various committees, the kind of a swimming pool desired was settled.

And, on Sunday morning the work of excavating was commenced in brief, within thirty-six hours after the mass meeting the work of construction was under way and has been going on from early morning until at night with a rush.

The Eastern Montana Light Co strung its wires and is furnishing light so that there shall be no delay.

The gravel and cement is now being delivered, and the concrete work will commence tomorrow.

Circular in Shape.

The pool will be circular in shape and 150 feet in diameter. It will run from nothing at the perimeter to eight feet in depth. Springboards and other aquatic devices will be installed. It is situated in Lloyd Park and adjoins the free tourists camping grounds thus making it available to the autoists. No fee will be charged for the use of the pool. City water will be employed and hence will insure a clean, wholesome supply. The city government will bear this expense and probably the cost of maintenance, otherwise the Glendive Chamber of

ASPIRIN

Name "Bayer" on Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoacetylcideester of Salicylic acid.

KALININ HEARS PEASANTS' COMPLAINTS

This picture, just received from Bolshevik Russia, shows Kalinin, chairman of the Moscow Soviet, and one of the most influential national Bolshevik leaders, hearing pleas and complaints of Russian peasants. The picture was taken on a recent tour in which Kalinin visited the country districts to hear appeals and kicks, and find out the peasant's viewpoint. The picture was brought to America by Dr. William Wovschim, of New York, who recently returned after investigating conditions in Bolshevik Russia for the Joint Distribution Commission of New York.

Commerce will look after this feature.

A campaign to raise the necessary funds has been in progress for the past two days, and a drive to cover the entire city was put on this afternoon by fifteen sub-committees.

It is expected that the pool will be ready for use within ten days and not later than August 15. Appropriate dedication exercises will be held.

To Beautiful Grounds.

Plans are also being worked out to provide a lily pond and fountain near the pool and on ground somewhat lower in elevation than the pool. The overflow water will be used for this purpose. A Japanese garden will also be constructed at another lower elevation.

The general committee in charge of the work is composed of the following: E. A. Shabel, Shabel Lumber Co., F. C. McBride, Midland Coal & Lumber Co., W. C. Sloan, Sup't. N. P. Ry., Ed L. Brown, Mgr. Eastern Montana Light & Power Co., and John F. Murphy, Pres. Jordan Hotel Co. and Chamber of Commerce Chairman, Labor Committee, F. J. O'Malley, O'Malley Electric Co., chairman Material Committee, Harry N. Dion, Vice Pres. Exchange Bank, chairman Finance Committee, M. J. Hughes, Vice Pres. First National Bank, chairman Engineering Committee, R. T. Hurdie, City Engineer, chairman, J. J. Ermatinger, Secretary all Committees.

Why Our Business is Good Now

Not chance nor luck, not fate nor freak of fortune lay the course we follow.

Habit is a mighty factor in life's activities. It is a hard master, but a willing servant. An essential factor in our solid advancement has been the habit-forming character of Better Bread and Pastries, the things we eat three times a day.

The better they are—the more is eaten! Are you buying good foods at fair prices? Or cheap foods at cheap prices?

Get the habit—buy the best—it pleases—and satisfies. That's why our business is good! We're giving better merchandise—you'll come back.

The Barker Baking & Candy Co.

Printing and advertising is represented in many items. A sum of \$16.50 was paid for 2,000 circulars containing a reprint from The New Majority.

The Plum Plan League, of Washington, publishers, received \$101.65 for stamped envelopes, letterheads, and 16 1/2 hours of labor at 75 cents per hour.

Carl D. Thompson, formerly national socialist secretary received \$60.67 for traveling expenses from May 16 to May 31, according to the vouchers. An item as of June 15 is for \$100 full time one-half month" for Thompson.

Mr. Thompson also received for \$83.75 for the purchase of 51 copies of Russell's story of the Nonpartisan League for the Public Ownership League of America

DANCING PARTY

Mr. and Mrs. Robert Orr and Miss Agnes Orr entertained about a hundred guests at an informal dancing party at the County Club last night in honor of Miss Hale Crilly and Miss Rena Winding both of Minneapolis who are guests at the Orr home. The club dancing room was embellished with many beautiful flowers. Mrs. N. L. Call assisted in serving. The honor guests and Miss Orr served together in Europe during the World War.

MARRIED AT ROCHESTER

Dr. and Mrs. H. S. Quigley who were recently married at Rochester, Minn., arrived in Bismarck last night for a few days' visit at home. They are enroute to China where Mr. Quigley has been given a professorship in Tsing Hua College at Peking in the department of Political Science. Tsing Hua College is operated on the Boxer indemnity funds received by the United States government in China and is operated by the Chinese government. He retains his position with the University of Minnesota and has been granted a two years' leave of absence.

His bride was Miss Louise France daughter of Mr. and Mrs. Charles France near Rochester, Minn. The marriage took place at the home of the bride's parents Wednesday evening in the presence of a large company of relatives and friends, Rev. C. H. Quigley officiating.

KINDERGARTEN PARTY

About eighty children, attendants of the summer Kindergarten attended the party given on the lawn of the North Ward school at the closing session this morning. The children had prepared favors for the party and this with the games they played the greater part of the morning gave them a chance to apply their work of this summer. Picnic refreshments were served.

VISITS HUSBAND

Brooks Hoskins who was hurt in a railroad accident recently is in a hospital in Grand Rapids, Mich. An item in the Fergus Falls Daily Journal says Mrs. Hoskins left for Grand Rapids to visit her husband who was reported in a more serious condition than immediately after the accident his legs being badly injured.

TO SPEAK AT JAMESTOWN
Miss Minnie J. Nelson left on the morning train for Jamestown. She will speak at the meeting of the North Dakota State Editorial Association this afternoon. The talks to be given at the meetings this afternoon are on "Selling North Dakota" and Miss Nelson will talk on "Selling Education." She will return to Bismarck Sunday.

TO VISIT PRISON

Charles Perez who is to appear at the Rex theater and who spent three years in the federal prison at Atlanta, Ga., was given permission today by Warden Star of the prison to try and cheer up the convicts this evening. He will relate many anecdotes of prison life and tell of life in the Kentucky hills.

TO TWIN CITIES

Mrs. A. A. Jones and daughter Alta left for the Twin Cities this morning. Mrs. Jones will visit friends in the cities and Miss Alta will go to Spicer, Minn., where she will visit Miss Justine Paulson at their summer cottage.

RECOVERING FROM ILLNESS
Joseph Dietrich, who has been ill one of his daughter, Mrs. P. E. Byrne for the past month is recovering and is now able to be up. Mr. Dietrich is under the care of his daughter, Mable Dietrich who is a trained nurse.

ON EXTENDED VISIT
Mrs. L. K. Thompson and daughter, Marvian have left for Minneapolis where they will visit Mrs. Thompson's parents, Mr. and Mrs. William Weimer from Minneapolis they will go

MRS. MAY ROSE

Laboratory Technician is the title which Mrs. May Rose of Louisville Ky. wears.

And it means that the working of the entire Pope Sanatorium at Louisville revolves around her effort. Because when a patient is brought to the sanatorium Mrs. Rose makes the blood and chemical analyses from which the diagnosis is made and prescriptions based on.

In order that the chemical test may be made, the patient is given a test meal consisting of ordinary foods well prepared. In an hour that meal is taken with the stomach tube and the test is made.

Mrs. Rose was a graduate nurse first at Alton several years of practice she prepared herself for the technical work.

to Chicago and other Illinois points where they will visit friends.

ON MOTOR TRIP

Mr. and Mrs. H. F. Keller and family and Mrs. Scott Cameron leave tomorrow on a motor trip to the Detroit lakes and to Cambridge, Minn. They expect to be gone about three weeks.

WOMEN'S COUNCIL TO MEET
The regular meeting of the Women's Council will be held tomorrow afternoon at 3:30 at the Rest Room Plans

Mrs. Suzanne Hultberg and children

of Washburn have moved to the city of Washburn during the school year.

Business Men's Lunch, 25 cents. New Garrick Confectionery.

Do you know Sam Laskin? If you don't, meet him Face to Face at the Economy Shoe Store. Located 2 doors West of French & Welch, 302½ Main street.

Can as Mother used to

BIG, firm peaches, pears and plums of your own selection — pure sugar — clean bright kettles — newly washed mason jars — and the whole operation done in your own kitchen — it makes a difference. Who cannot tell delicious, pure home-made preserves from factory-tinned fruits?

Put up a good variety to last the whole winter. You will save one-third to one-half by doing this work at home.

Sweet Pickled Peaches or Pears always give meals a tempting and appetizing touch. Here is a good recipe:

½ peck peaches 1 pint vinegar

2 lbs. brown sugar 1 oz. stuck cinnamon

Cloves

Boil sugar, vinegar and cinnamon 20 minutes. Dip peaches quickly in hot water, then rub off the fur with a towel. Stick four cloves into each peach. Put into the syrup and cook until soft, using half the fruit at a time. Follow same recipe for pears.

Plan your canning now — order your Ball mason jars

THE STATE'S OLDEST NEWSPAPER

(Established 1873)

A LETTER TAX

President Harding has indicated favor for an increase in first-class letter postage as a means of increasing government revenue. Net income from the higher rate would be turned into the United States Treasury for general purposes.

Congress, searching wildly for sources from which revenue may be wrung, thinks favorably of the idea also.

So we may set it down as reasonably certain that the increase will be made. It will raise between \$70,000,000 and \$80,000,000 a year and without costs of collection. You'll simply pay the postmaster three cents for a postage stamp instead of two cents; or two cents for a postcard instead of one. Very simple.

There will be loud protests, probably, from mail-order houses and other businesses which conduct their advertising campaigns largely by circularizing.

The average letter-writing citizen, too, will \$500,000 or so (face value) the government step-growth some. Here, to him, will be a visible evidence that the cost of government service has gone up, not down. FOR ON ITS FACE THERE IS NO SEPARATION OF THE AMOUNT THAT GOES TO DEFRAY THE COST OF CARRYING HIS LETTER AND THE AMOUNT THAT GOES TO THE TREASURY AS A WAR TAX.

Up in Canada they do it differently. They have a one-cent war tax on letters there. But it is a separate and distinct stamp. It is labeled as a tax of the Shipping Board for an appropriation of stamp, and must be licked and placed alongside the postage stamp on each envelope. It is not camouflaged or concealed as an increase in postage.

Our method, however, is to soften the blow; to disguise the tax wherever possible.

This letter tax leaves open only one tax-free means of communication.

We have a tax on telephone conversations, a tax on telegrams and are about to have a tax on letters, but we have as yet no tax on the verbose political communications of congressmen to their constituents.

The frank envelope, which carries no stamp, will evade payment of the new letter tax.

YET THE TONS UPON TONS OF FREE MAIL SENT OUT FROM WASHINGTON IS NO SMALL CONTRIBUTOR TO BUILDING UP A POSTAL DEFICIT.

If the new letter tax were made to apply to Congressional mailings, it would help the government financially in two ways.

It would bring in revenue directly from all necessary Congressional correspondence.

And it would cut to one-half or one-quarter the volume of political buncome that now clutters up the government printing offices and the mails out of Washington.

That would be a tax that would benefit us all!

AIR HAZARDS

The War Department order prohibiting army fliers from doing stunt flying over towns or crowds should have been issued a long time ago.

Flying is hazardous enough under the best of conditions, as is shown every day in the number of accidents reported.

To add to the hazard by jeopardizing the lives of people on the ground, as has been done with such tragic results a number of times lately, is sheer recklessness.

THE INDIAN GIANT

A man two miles tall once lived near Niagara Falls, according to a tradition of Canadian Indians. This month they make their yearly canoe expert climbers in the prime of life have tried it visits to the monster's reputed grave on Giant's Tomb Island in Georgian Bay, Lake Huron.

That makes you smile?

Yet for hundreds of years every Canadian Indian was taught from childhood to believe in the legend who understands his theory of relativity!

He is Edwin Roche Hardy, the 12-year-old Columbia University prodigy, whose mastery of some 20 languages and all the higher branches of learning is the educational marvel of the age.

Which shows that the difference between savagery and civilization is more in the brain than in material works.

There were giants on earth in those days.

So runs the Canadian Indian tradition. A race of giants, living near Hudson Bay, fought among themselves until only one was left—Mr. Ki-chi-ki-wa-na.

We had almost begun to believe it, when—

The wires carried the word that Pancho has

thrown \$200,000 into oil inspection.

opened an outlet for Lake Erie and made Niagara Falls.

One day, runs the legend, the giant was carrying away a mountain when he stepped on a big fish, slipped, and the mountain was shattered. Its pieces are the Thirty Thousand Islands.

Finally the giant died. Indians say that their ancestors, unable to move him, covered him with sand and large rocks.

Your son would study geography without urging, if his books had a few stories like this.

Every race has folk-lore traditions like the Indian Giant, from Gog and Magog of Wales to the giant dragon of China.

Are they entirely myths? Or did they really have some meager foundation in fact?

More probably, champion liars and visionaries existed in man's early days as they exist now.

They spun yarns which, passed on from generation to generation, finally became accepted as fact.

A lie becomes universally believed if it is repeated often enough.

Time, measured in thousands of years, kills it.

Ten thousand years from now, the people of Bismarck will grin at some of the notions and theories you have today, just as you grin at the fabled Indian Giant who made Niagara Falls.

SOME MORE PONZIS

Two more Ponzi's go to prison.

Thomas Farrow agitated against British money-lenders for years. Then he got some folk to lend him money and started a poor man's bank of his own. He paid higher than usual interest in order to get depositors. After 12 years' operation it has been discovered that his bank is short more than \$5,000,000.

Stephen Capsack is a 17-year-old Chicago boy who started a mail order brokerage house and got farmers in the middle west to send him stocks and bonds to sell at top prices on small commission.

After Stephen had separated his clients from

\$500,000 or so (face value) the government stepped in.

In each case depositors and investors fell for the old bait—the lure of easy money. The easiest money, after all, is that which is realized by hard work, careful saving and intelligent investment.

Of all other programs beware.

POOR BUSINESS

Congress seems to be pretty cold to the request for a separate and distinct stamp. It is labeled as a tax of the Shipping Board for an appropriation of stamp, and must be licked and placed alongside the postage stamp on each envelope. It is not

camouflaged or concealed as an increase in postage.

It looks as though a lot of very pertinent questions will have to be answered before this additional burden is loaded on the taxpayers.

Among these questions is: Why are British vessels carrying more of our trade than our own

vessels at a time when hundreds of our ships are laid up for lack of cargoes?

A year ago, ships under the American flag carried half of our foreign trade. Today they are carrying only about 35 per cent.

Putting up \$25,000,000 a month to make up deficits, while the bulk of our trade is carried in foreign bottoms, presumably at a profit, doesn't seem like a good business proposition.

LONGEVITY

The president of the board of elections of the city of New York celebrated his 92nd birthday the other day by walking to his office and doing a full day's work.

His fellow workers say that he is just as spry physically and keen mentally as he was 20 years ago. He doesn't use eyeglasses and his hearing is unimpaired.

Regular hours, plenty of work, plain food and moderation in use of tobacco and liquor is this young-old man's formula.

There is no guarantee that if you follow this formula you will live to be 92, but it certainly will improve your chances.

YOUNG-OLD MEN

The old fellows seem determined to discredit the Osler no-good-after-you-are-forty theory.

Recently we noted the case of the 91-year-old Chicago man who had been divorced the third time and was looking for more wives to conquer.

Then there was the case of the New York official who celebrated his 92d birthday by walking to his office and doing a full day's work.

Today we note that an Englishman, 65 years old, has climbed the Weisshorn, one of the most difficult peaks in the Alps. He is the oldest man who ever scaled this 14,800-foot peak and many experts in the prime of life have tried it

visits to the monster's reputed grave on Giant's Tomb Island in Georgian Bay, Lake Huron.

That makes you smile?

Yet for hundreds of years every Canadian Indian was taught from childhood to believe in the legend who understands his theory of relativity!

He is Edwin Roche Hardy, the 12-year-old Columbia University prodigy, whose mastery of some 20 languages and all the higher branches of learning is the educational marvel of the age.

Which shows that the difference between savagery and civilization is more in the brain than in material works.

There were giants on earth in those days.

So runs the Canadian Indian tradition. A race of giants, living near Hudson Bay, fought among themselves until only one was left—Mr. Ki-chi-ki-wa-na.

We had almost begun to believe it, when—

The wires carried the word that Pancho has

thrown \$200,000 into oil inspection.

REFORM

It wasn't so long ago that President Obregon announced he had Pancho Villa's word that the ex-bandit had reformed.

We had almost begun to believe it, when—

The wires carried the word that Pancho has

thrown \$200,000 into oil inspection.

ABOUT THIS TIME O' YEAR

PLANNING FOR THE COUNTY FAIR

By Olive Barton Roberts

(To Be Continued)

SAYS THAT HE FEELS BETTER THAN IN YEARS

Mitchell Man Able To Do As Much Work In One Day As He Used To Do In Two

"I am feeling like a new man and am able to do as much work in day now as I used to do in two, thanks to Tanlac," said N. W. Johnson, a well-known carpenter living at 401 North Main St., Mitchell, S. D.

"Both my stomach and liver got out of order about three years ago and from that time until Tanlac relieved me I didn't know what it was to have a well day. I ate very little, but even then I was sure to have a heavy, distressed feeling for hours after meals. I got very little sleep at night and in the morning just dragged myself out of bed, dreading to go to work because I felt so miserable."

"I was almost down and out, but now I feel as well as I ever did in my life. My appetite and digestion are fine. I sleep like a log all night and wake up in the morning feeling fresh and fit for work. The fact is I feel so good that I swing my hammer and pull my saw as I haven't been able to do for years. My work is no longer a drudgery. I enjoy it. Every hard working man gets run down at times, and if they took my advice they would get Tanlac at once. It certainly builds a man up and makes him feel fine."

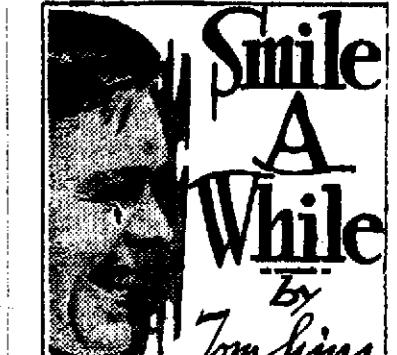

followed Howly and Jumpy to the black cloud and peeped over the edge; here's what they saw:

Sizzly Dry Weather sneaking off toward the south as hard as he could go; Phil's children swimming about happily in a cool, new puddle of water; little sprouts of green grass peeping up to see what had happened. Farmer Smith's garden plants lifting their droopy heads, and a hundred grateful creatures running here and there to talk of the good news.

No one minded a soaking?

(Copyright 1921 by Newspaper Enterprise)

(To Be Continued)

Some figures lie.

Russia should confiscate a little more.

Modern matrimonial bonds are kept in the bank.

The country has been dry-cleaned and is pressed for hooch.

Russia's liabilities: 30,000,000 starving people—and no assets.

Too many think the world was made for hypocrisy.

The school of experience holds its graduation at the grave.

Where redskins once bit the dust, pedestrians are now doing it.

Certain ball players are doing penance for throwing pennants.

What you don't know won't hurt you—if you try to tell it.

Democrats say Republicans really did "break" the solid South.

Pluck is a good business asset—if you don't try to pluck others.

It wasn't much of a picnic in the ark, with only two ants present.

The world owes you a living, but you can't send a collector for it.

Girls realize the truth of that old saying, "We all hug delusions."

The question is "Will Lloyd George fall over the Northcliffe?"

It's the silent drama only until someone goes there to eat peanuts.

The modern girl thinks she's a live wire; reformers say she's shocking.

The prodigal son now stands on the corner and watches the fallen calves.

Every neighbor wants inside information on how your home-brew works.

Rockefeller attributes his success to gold. Most men attribute their gold to success.

One way to get the small boy to bathe is put a sign over the tub: "No Swimming."

The old-fashioned army may have traveled on its stomach, but the modern one travels on taxes.

Edison says we are all barbarians under the skin, probably having noticed a man who had just

Tom Had Some Guide.

BY ALLMAN

SOME SMILES

(Copy of the American Legion News Below)

Latter-Day Pugilist

I understand the young pugilist rejected an offer of \$25,000 for 40 minutes work.

With extreme hauteur, too. He informed the fight promoter that his hotel bill last year amounted to that much and a person of his prominence couldn't think of working for his room and board.

Genius in the Films.

"I know you for a writer of genius we must have more such in the movies."

"I thank you."

"Now I have 90 feet of a fireman's parade 150 feet of bathing girls at Long Beach and 300 feet of the Rule Yardard game. Kin you write me a story of genius around them?" —Film Fun.

Human Depravity.

"I seen you with my own eyes" said Three Finger Sam. "You were sold off the bottom of the deck."

"Well" inquired Plute Pere "what're you goin' to do about it?"

"I'm undecided whether to denounce you to the Crimson Gulch public or change the name to bridge and choose you for a partner."

Miamaged Farm.

"Did Bacon write the Shakespeare plays?"

"I don't know," replied Mr. Stormington Barnes. "Whoever wrote 'em showed carelessness in not employing a press agent to look after his personal interests."

Small Profit.

The situation has reached an acute stage.

"You forget, John Henry," she said, "that we must profit by our mistakes."

"The only man who profited by our mistakes was the clergyman who married us," snapped John Henry —Lon don Tilt Bits.

THE AMERICAN LEGION

(Copy of the American Legion News Below)

THE "DOUGHBOY OF IDAHO"

Striking Statue Recently Selected by State's War Memorial Commission, is Lifelike Study

It's a full-size model in the stiffened, firmly dressed recruit which died America after the armistice as the sculpture representation of the American soldier to the shirt-sleeved, delightfully informal Doughboy of Idaho recently selected by the state's memorial commission to symbolize Idaho's contribution to the World war. The statue work of Arvard Farnsworth, Portland, Ore., and Salt Lake City, Utah artist, is the most lifelike study of the A. E. F. infantryman as the Boche saw him that Amer-

Statue Adopted by Idaho.

Local artists have produced according to both the ex-infantryman and those who have sought to immortalize him in bronze and stone.

The Idaho commission has ordered that all counties of the state have monuments alike in character with the addition that Mr. Farnsworth's Doughboy be the main feature of each county's memorial. The American Legion of Idaho has been won in its commendation of the statue and Mr. Farnsworth has returned the compliment by informing the service men that "I am convinced that the American Legion is holding out for" the Doughboy.

Gyped for Each One.

Any uplift movements going on in this town just now?"

"You'll have to ask Mr. Grabcoen about that."

"Why so?"

"By consulting the stubs in his checkbook he can name them all."

No Sale.

The Salesman—A nice birthday gift for your husband, eh? How would this safety belt hold out? Impossible to open without the key.

Mrs. Justived—Why I think that would be perfectly horrid.

Inexperienced.

"Boys have a lot to learn."

"I don't get you."

"I was just thinking about that little chap of mine. He still talks back to his mother and I gave up that method years ago."

Tax on Credulity.

"The Jibways must be a remarkable couple."

"In what respect?"

"She had most of the money when they married but I understand she never reminds him of it."

As It Seemed to an Expert.

Mrs. Groot—Whom did you think when you woke up and saw the burglar going through your husband's clothes?

Mrs. Loote—It struck me that he was very amateurish about it.

Trouble Averted.

"Sir Isaac discovered the law of gravitation."

"Yes" commented Senator Borgham. "He was lucky all the enforcement facilities were provided for in advance."

Not Insurable.

"Do you mean to tell me you are running away business."

Yes said the insurance man. "The fellow who just went out wanted me to write a policy on his home still."

Significant Activities.

"That's right, we've got a lot of fun."

Yes I like to do that. Mrs. Lovell's

lives in the same house and just keep

up her home and garden."

DID YOU KNOW?

That the best way to bustle often will be more effective than when he is not?

That the best way to bustle often is very old.

That the best way to bustle often is through a system of good croquettes.

WILTON-MINOT BATTLE TO TIE

Game at Underwood Ends 5 to 5
—Wilton Team to Play
During August

Wilton, N. D., Aug. 5.—The Wilton baseball team will continue to play during the month of August.

At a meeting here Karl Knowles was elected manager and Spike Flaherty, captain. The games will be played on a percentage basis. The schedule includes: Wilton at penitentiary, Bismarck, Aug. 1; Leeds vs. Wilton, Aug. 9-10; Van Hook vs. Wilton at Garrison, Aug. 14; Leeds vs. Wilton at Wilton, Aug. 15; Fargo vs. Wilton, at Wilton, Aug. 19.

The Wilton team played Minot to a tie, 5 to 5, at Underwood, August 3. Flaherty was pitching in good form and Minot batters had difficulty in connecting with his hooks. The game was called in the last half of the ninth inning on account of darkness after Wilton had tied the score. Chicosky, Wilton catcher, was hit by a pitched ball in the second inning. A bad cut was sustained above the eye and it was necessary to take stitches to close the wound.

The score by innings:

Minot 100 002 101 5 7 3

Wilton 101 000 005-5 9 1

AMERICA WINS FOURTH RACE

Cowes, Isle of Wight, Aug. 5. (By the A. P.)—America won the fourth international yacht race here, defeating the British entries by the close margin of 17 points to 16. Great Britain won the first three races.

CARP-GIBBONS FIGHT PUT OFF

New York, Aug. 5.—The Carpenter-Gibbons fight planned here for the first part of October has been postponed several weeks because of the injury which the Frenchman received when he was defeated by Jack Dempsey in Jersey City, July 2. The fight now is scheduled for late in October or the first part of November in Madison Square Garden.

STRASBURG IS LEAGUE WINNER IN EMMONS CO.

Wilton, N. D., Aug. 5.—Last Sunday Braddock and Napoleon played the final league game of the season at Napoleon, Braddock losing the game by score of 7 to 3. It was a good game throughout, and Braddock lost her chance of winning first place in the league. This victory for Napoleon gives Strasburg first place in the Emmons-Losan league for 1921 and leaves Linton and Braddock tied for second. Napoleon is next and Hazelton last.

Following is the wind-up of the league standings:

	Won	Lost	Pct.
Strasburg	6	2	.500
Linton	5	3	.625
Braddock	5	3	.625
Napoleon	5	5	.375
Hazelton	4	7	.125

WHY KECK WILL SHINE THIS FALL

BY DEAN SNYDER.

Stanley Keck, captain of the Princeton eleven, will be ready for the whistle this fall.

Despite the heat of mid-summer he is working daily in moleskins at Chicago.

He is spending the summer with Mark Bates, Princeton freshman last year. Every day they go through a rigid training program.

They tackle the dummy, practice line bucking and goat kicking.

Keck proved himself great enough last fall to be named on the All-American.

WAKING UP.

England is coming back as a world power in sports. The spirit is reviving which makes any nation a worthy leader. The hange has been noted since the war.

Her weakness has been her own complacency. She has originated games, taught them to the world, and then sat back satisfied to see other countries develop the stars and cash in.

To be a winner in sport the players must take it seriously.

That is what England has not done in the past.

REMARKABLE.

Mrs. May Sutton Bundy and Miss Mark K. Browne, both come-hucks in tennis, are playing brilliantly in their early tests.

How these women have retained their former greatness is truly remarkable.

They seem to have stepped back on the courts from their yesterdays the same stars they were several years ago as champions.

About them there is still the young girl's poise and mechanical skill.

In other sports a layoff of eight or ten years means flins.

But Mrs. Bundy and Miss Brown are in condition to add other bright pages to their former tennis history.

ALL'S WELL.

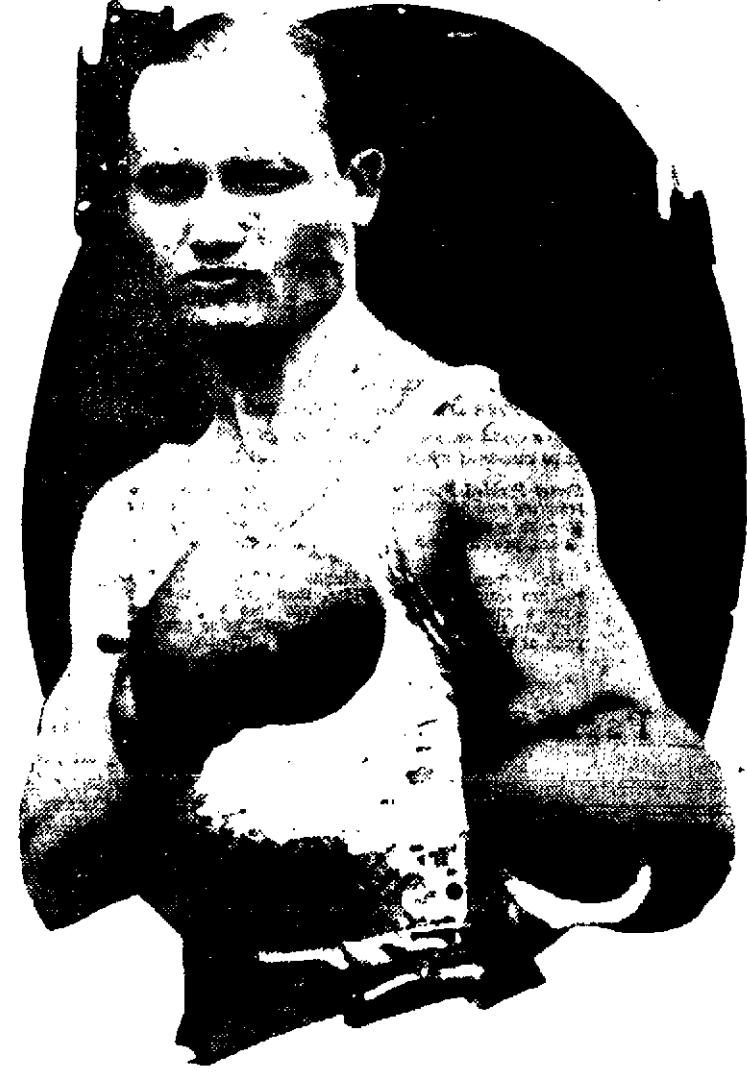

The New York Yankees didn't finish the matter with baseball on their last western swing.

Babe Ruth Co. showed off before 25,000 fans.

Claveline was the banner town eighty thousand turned out for the series. Detroit was second with 73,000 and Chicago third with 53,000.

"HAVING A HEART" IN RING DOESN'T PAY, FRUSH FINDS

DANNY FRUSH

BY DEAN SNYDER.

Danny Frush, Baltimore featherweight, who fights Johnny Kilbane in September for the featherweight championship of the world, is a fighter without a "heart."

He used to fight in England, where boxing skill is recognized. But since coming to America he has changed his style.

He found that "having a heart" in this country didn't pay. Fighters whom he let stay razed him afterwards. Down and out, was the idea here.

When he meets Kilbane he won't try to win by points, but on a knockout if he can slip one over on the gray-haired champion.

"There is no sentiment in boxing," says Frush.

"In America you are no better than your knock-out record. You have to stretch them on the floor before fans give you a hand."

"I believe I can knock out Kilbane,

It's my opinion that the first good man who gets in the ring with him will step out the champion.

"That's why I am willing to fight him for just training expenses and let him 'take the curse' of \$60,000 which has been offered by the Cleveland promoter, Tommy McGinty.

"I'll cash in afterwards. It takes a little to make money in the fight game."

"A year ago I sent to England and had my father and mother, two brothers and sister come to America."

"I earned enough in the ring to buy them a nice home in Baltimore. Now I want enough to set my father up in business."

Kilbane is 10 years older than Frush. The Baltimore lad was born in London 23 years ago of Jewish parents.

His first fight netted him \$13.

Frush likes good clothes and looks out for the needs of his family. He shows a heart—where it really counts.

FOOTBALL STAR AT BATHING BEACH

Chicago, Aug. 5.—Harold C. Liffendahl, University of Illinois student and football star, who was working his way through college and had obtained his job for the summer as a lifeguard at a bathing beach here, died in a local hospital last night of a broken neck. Liffendahl, who had a record of having saved 20 persons from drowning this summer, was injured a few days ago when he dived into shallow water.

GIVES THE DOPE ON LIVELY BALL

Brooklyn, N. Y., Aug. 5.—Zack Wheat, 20-year-old pitcher of the Dodgers has doped out the lively ball. Outfielders are laying back from 10 to 12 feet this year, says Wheat. They have to keep their heads. Deep passing makes it possible for many short flies to fall safe. Outfielders aren't trying to nab base runners at the plate for two reasons—the throw is too great and if we do throw the

THE BISMARCK TRIBUNE

JOHNNY EVERES LOSES HIS JOB

Chicago, Aug. 5.—John J. (Johnny) Evers is no longer manager of the Chicago National league club. William Kelleter, veteran catcher of the team and regarded as one of the greatest stars of the game, was appointed Evers' successor.

Official announcement of the change in the leadership of the Cubs was made before the Cubs and the Boston club took the field. Kelleter called his players together in the clubhouse and informed them of his appointment. The new pilot made an enthusiastic address which was greeted with cheers by his team-mates who pledged their support to make him a success in the management of the team.

BISMARCK CLUB PLAYS AT MINOT

The Bismarck baseball club left for Minot early today on the Soo line to Max, from which point they will drive across to Minot. The team plays in Minot today, Saturday and Sunday.

MIKE GIBBONS GETS DECISION

New York, Aug. 5.—Gene Tunney, light heavyweight champion of the A. F. C., was given the judges' decision after a ten-round bout with Martin Burke of New Orleans, here last night. Tunney had the better of eight rounds. The others were even. Tunney weighed 178 pounds and Burke 175½.

The judges gave the decision to Mike Gibbons of St. Paul in his ten-round semi-final bout with Augie Ratner of New York.

WHEELER SEES WHOLE WORLD DRY

Anti-Saloon League's General Counsel Points to Drys' Progress Everywhere

By Newspaper Enterprise

Washington, Aug. 4.—Wayne B. Wheeler, general counsel for the Anti-Saloon League of America, comes forward with this statement:

"The world is going bone-dry!"

He says Europe is waiting to see how prohibition turns out in America. If police and federal agents win in their war on bootleggers, Europe will straightway ban booze. Wheeler is sure.
